## PRE-PRIMARY CAMPUS

Started with a vision to provide spacious and playful environment for kids **"where kids learn first to play with nature"**

**WHO  
WE  
ARE?**

## **OUR EDUCATIONAL GOAL**

To educate students to construct an understanding of knowledge and their world through carefully developed learning and social skills.

## **OUR VALUES**

- Individual learners
- Creative and inquiring
- Learning beyond the classroom
- International mindedness
- Reflection and goal setting
- Collaboration and connectivity
- Environmental awareness
- Healthy and mindful choices
- Honest and principal actions.

## **OUR MISSION**

Empower everyone to become successful lifelong learners

## **OUR VISION**

To identify uniqueness of each child and encourage independent thinking by promoting a nurturing environment so as to shape them as respectful, proactive citizens in our international community.

## PRE-PRIMARY YEAR PROGRAMS

The children of 3-6 years will participate in primary years program (pyp) which includes nursery, PP1, PP2 which builds social, physical, cognitive, creative and emotional development in young learners. Students experience a culturally diverse setting where a balance of play, which is teacher initiated for child-directed inquiries and challenges to stimulate their learning in a nurturing environment.

We understand that learning is a lifelong process and that students develop at different rates. Readiness and receptiveness to learning varies within individuals. Our highly experienced teachers aim to instill a love for learning in each child so that it is seen as a desirable, enjoyable activity that will continue naturally long after formal education is completed.

All activities are designed to enable students to become inquisitive, communicative and confident young learners. We aim to develop confidence among our students in communicating ideas to others through appropriately designed activities in speaking, listening, reading and writing that builds the foundation for lifelong learning.

## INTERNATIONAL CURRICULUM

The PYP prepares students to become active, caring, lifelong learners who demonstrate respect for themselves and others and have the capacity to participate in the world around them. It focuses on the development of the child as an inquirer, both within and beyond the classroom.

### **Trans-disciplinary Theme:**

The Primary Years Program (PYP) is underpinned by six trans-disciplinary themes around which learning is planned.

These are:

- Who we are.
- Where we are in place and time.
- How we express ourselves.
- How the world works.
- How we organize ourselves.
- Sharing the planet

These themes are selected for their relevance to the real world. They are described as trans-disciplinary because they focus on issues that stretch across subject areas. The trans-disciplinary themes help teachers to develop a program of inquiry.

## STUDENT TEACHER RATIO

Since the international curriculum is student- centered we at bloomingdale international school aim 1:8 teacher: student ratio

Teachers in a Bloomingdale International School(BIS) pre primary program have time to interact and form relationships with their students. It is through these relationships that teachers can guide learning and behavior ,there is more time to spend with students individually and in small group instruction. Our students will learn how to value life-long learning in an progressively fitting and nurturing environment through support and guidance from their families and school community.

## Improved learning spaces:

Our new classrooms are designed to be flexible based on day to day curriculum needs.

Multiple types of spaces inside the classroom to accommodate different activities and to break the monotony of sitting in the same place.

Classrooms are also spacious for the kids to move around.
