## **SHENYANG IS UNLIKE ANY OTHER CITY**

If you were to live in a bigger city like Beijing, Shanghai, Shenzhen, and Hong Kong you would be forced to commute on the subway 2-3 hours every single grueling day.

*Typical day taking the Beijing subway system. Ouch!*

In Beijing, Shanghai, Shenzhen, and Hong Kong you:

- Won't make as much money. Earn a lower salary.
- Won't be able to save as much money. Everything is expensive in these bigger cities.
- Forced to commute on the subway for hours each day.

- Your apartment won't be near your workplace and will be on the outskirts of the city.
- Rush to place to place. Live a hectic lifestyle.

## **SHENYANG, CHINA IS THE BEST PLACE TO START A NEW WORKING LIFE**

We strive to bring the best environment for our foreign teachers and students that is fun, entertaining, and educational.

Giving our new teachers once arriving in China the best experience possible with results-driven training and curriculum to make their transition to China the most fun and easy it can be.

Unlike most schools that push the foreign teacher to teach a class crammed with over 14 screaming naughty young kids...

Here at Jack English Education our foreign teachers only teach at most 5-6 children per class.

This gives a better, easier and more enjoyable learning environment for both the teacher and students.

And even more, most classes are accompanied by a Chinese teaching assistant to help you.

When you join Jack English Education, you will join a community of foreign and Chinese teachers to support you in your workplace as well as in your personal life adjusting to China.

Teaching at Jack English Education is an experience you will never forget!

You will:

- Go on an unforgettable adventure
- Increase your skills
- Expand your mind as a world traveler
- Make a difference in young student's lives

PAUL, a new teacher says this...

"After joining Jack English Education, I have had a great time enjoying China, be it the food, the culture, the people, having fun with my students and colleagues. If I were to work in a bigger city, I wouldn't have had this unique experience."

MUSTAFA, a teacher who just arrived, says this...

"Before my big move to China, I had fear, anxiety, and sometimes thought 'is it too good to be true?' When I finally arrived in Shenyang and met my nice coworkers all of my nervousness went away."

If you worked at other schools in a larger city, you will become tired and stressed out from the long commutes, hectic fast-paced lifestyle, low salary and high cost of living.

All of our teachers that have worked for Jack English Education are happy and have worked with us for a very long time.

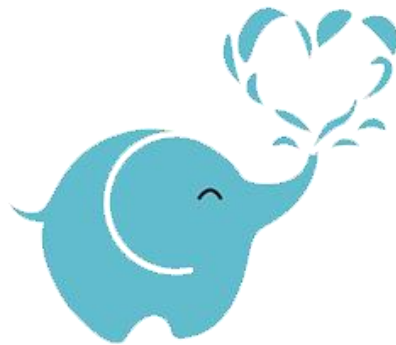

You'll love working at Jack English Education!

We only have a limited number of positions available for our Shenyang, China location. Only limited vacancies are available.

You'll love joining Jack English Education. We look forward to working with you.

You'll have a once in a lifetime experience working at Jack English Education

You'll be leaps and bounds ahead of your friends back home with your real-world international work experience, a world-traveled stamped passport and being a Chinese speaker.
