

XSEED
FOUNDATION FOR LIFE

THE UNAFRAID CHILD

WILL COMPETE IN THE 21ST CENTURY

XSEED is a proven research-based academic program for schools that builds thinking skills and problem solving confidence in children. XSEED children ask more questions, can write in their own words, like solving word problems in mathematics, can complete their homework on their own, are not afraid to speak up in English, persist longer in solving problems, and score well on tests.

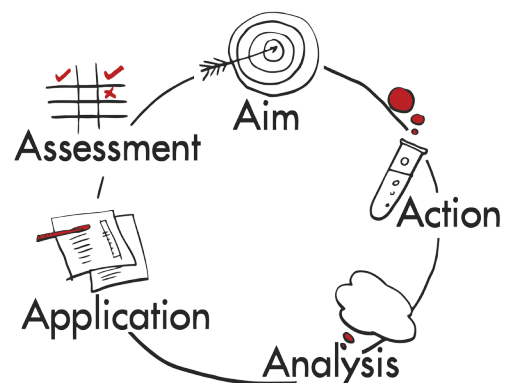

School Leaders Across the World Trust the XSEED System

Thousands of Principals Swear by the Change

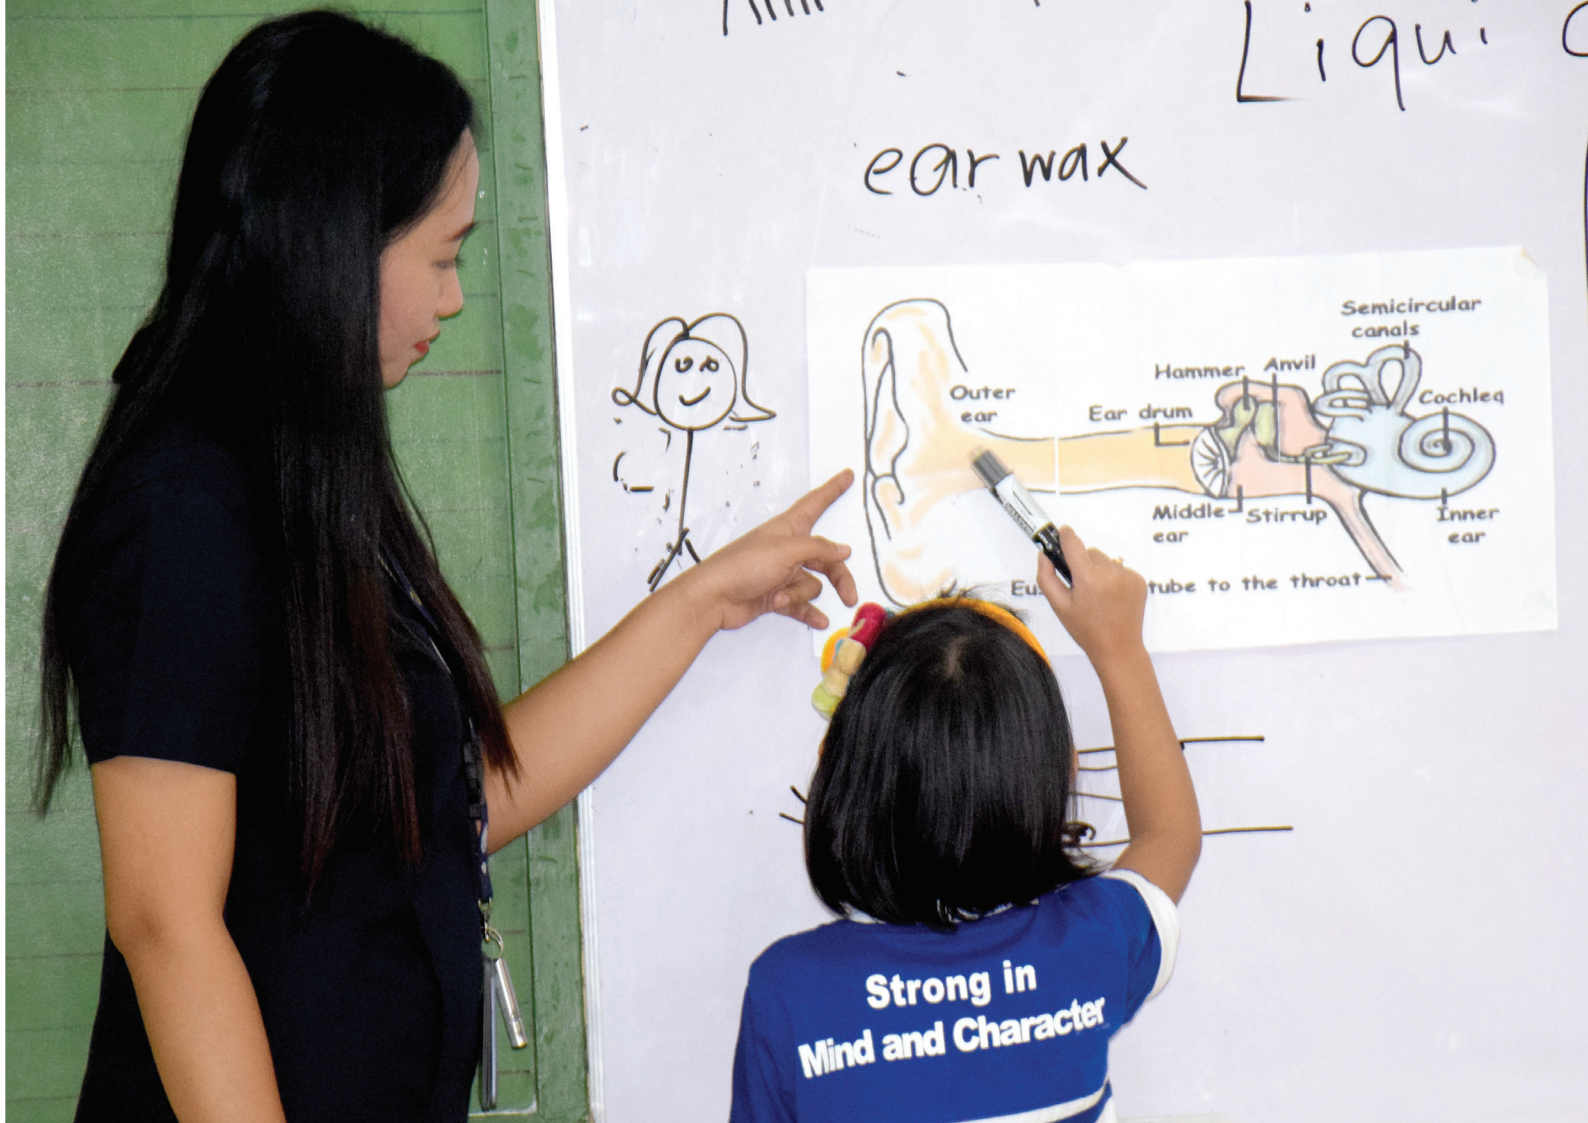

Improving quality of learning, managing parents' expectations, and yet managing financial viability, is a challenge for education leaders. XSEED is a proven solution that provides the answer.

Visible benefits of XSEED are the unafraid and the confident child. The result is proud parents who spread the word. Moreover, schools need to balance their books and ensure that there is financial viability. With XSEED, schools observe an increase in admissions and a good return on investment.

XSEED teachers begin a class by clearly stating the learning goal, ask children what they know already, demonstrate an experiment or conduct a group activity, let children speak before they do, ensure that application questions are done independently, fiercely believe in practice, assess daily, and support each child individually.

XSEED's solution is a scalable teaching toolkit for educating any child based on a scientific 5-Step Learning Process.

A School's Real Academic Partner Beyond Books, Boards & Promises

A Complete Solution

In XSEED schools, teachers are better resourced and regularly trained, and children have application practice workbooks for every subject in addition to textbooks. Assessment is on skills in addition to concepts, and the school leadership has a highly skilled Education Coach to consult with.

 **XSEED Block Map:** Easy academic planning and complete syllabus coverage across education standards including DepEd

 **Teachers Lesson Plans:** Over 10,000 well-researched, tested, and proven teaching lesson plans for the entire year

 **Students Application Workbook:** More emphasis on independent writing and real-life problem-solving skills

 **Content Book:** With illustrated concepts and practice questions focused on knowledge, application, and higher order thinking skills

 **Advanced Assessment Features:** Concept & skill assessment tools and reports that use innovative techniques based on different learning needs of children

 **XSEED Blue Scale:** A tool to assess progress of implementation and provide personalized professional development to teachers

 **Training & Coaching:** Focused on School Management, Principals, Teachers, and Parents with on-going support as the academic partner

XSEED
FOUNDATION FOR LIFE

The World Innovation Summit in Education (WISE) featured XSEED among path-breaking global innovations in education as part of *Learning Re-Imagined* by Graham Brown-Martin.

The MIT Legatum Center authored a case-study featuring Ashish Rajpal's journey as an entrepreneur and the founder of XSEED, for use in graduate courses on social entrepreneurship.

Over 2 Million Satisfied Parents Believe in the XSEED Way

Everyday XSEED reaches close to 3,000 Schools, 75,000 Teachers and over a 1,000,000 Students

XSEED is on a mission to transform education globally, from rote to learning, from telling to teaching.

The mission is led by a world class team of education, technology and business professionals from across the globe with core competence in Learning, Teaching, and Assessment of K-8 children. Founder and CEO Ashish Rajpal is a Harvard Ed. M and a student of Dr. Howard Gardner, father of the theory of Multiple Intelligences.
